Available:	shipping in 3-7 days* *provided the product is available at the manufacturer
Price:	7.331,32 € (nett:6.160,77 €)

Product description

This set of 20-inch "Panamera Turbo" winter wheels for the Porsche Panamera model 976 is an excellent choice for drivers who don't want to compromise on performance and style during the cold season. The combination of high-quality rims and specially developed winter tyres ensures optimum driving characteristics on winter roads.

The rims measure 9.5J x 20 ET71 for the front axle and 10.5J x 20 ET71 for the rear axle, ensuring a perfect fit and excellent driving stability. They come in Turbonite colour, which offers a modern and elegant look.

The Michelin Pilot Alpin 5 winter tyres in sizes 275/40 R20 for the front axle and 315/35 R20 for the rear axle offer outstanding traction and safety in snow and ice. These tyres are known for their durability and their ability to remain flexible at low temperatures, resulting in improved grip.

In addition, the wheels are equipped with TPMS sensors that monitor tyre pressure, providing an extra level of safety. This is particularly important in winter conditions, where correct tyre pressure is crucial for driving safety.

The OEM number for this set is 976044601C, which confirms its authenticity and quality as a Porsche genuine part. This product is new, unused and undamaged, giving you the assurance of receiving a high-quality product directly from the manufacturer. This set of winter wheels is an ideal addition to your Porsche Panamera, ensuring you can drive safely and stylishly even in winter.
