## Product description

This set of 20" Tequipment Design summer wheels for the Porsche Taycan J1 (2019-2024) combines stylish aesthetics with high functionality and offers an excellent choice for drivers who value both looks and performance. The rims are designed in sizes 9J x 20 ET54 for the front axle and 11J x 20 ET60 for the rear axle, ensuring an optimal fit and performance. These dimensions contribute to improved driving stability and handling.

The rims feature an attractive high-gloss black finish that not only looks modern but also helps to emphasise the luxurious appearance of your Porsche Taycan. The wheel set is completed by high-quality Michelin summer tyres in sizes 245/45 R20 for the front axle and 285/40 R20 for the rear axle. These tyres are known for their excellent road grip and durability, making them the ideal choice for warm weather conditions. The wheels are also equipped with TPMS sensors that continuously monitor tyre pressure, providing an additional level of safety. The combination of high-quality rims and tyres and the integration of TPMS sensors offers the perfect balance between aesthetics and functionality.

The OEM number for this wheel set is 9J1073650H, which confirms its authenticity and quality as a Porsche original part. Although the rims are marked as used, they are in mint condition with low mileage and minimal signs of use or storage. The tyres are brand new, which means they have no mileage and are in optimal condition. This wheel set is an excellent choice for Porsche Taycan owners who want to equip their vehicle with high-quality, stylish and high-performance summer wheels.
