Discount:	<b>55%</b>
Available:	<b>ready for shipping</b>
<b>Price:</b>	<b>3.293,33 €</b> <b>(nett:2.767,50 €)</b>

### Product description

This set of 20-inch "Turbo" winter wheels is specially designed for the Porsche 911 model 991.2 Turbo and Turbo S (without central locking). The combination of high-quality rims and Pirelli winter tyres ensures optimum performance and safety in winter conditions. The rims measure 8.5J x 20 ET51 for the front axle and 11J x 20 ET56 for the rear axle, ensuring a perfect fit and excellent driving stability.

The fitted Pirelli winter tyres in sizes 245/35 R20 for the front axle and 295/30 R20 for the rear axle offer excellent grip and traction on snow and ice. The 2017 tyres have a tread depth of 6 mm, which promises good remaining service life.

In addition, the wheels are equipped with TPMS (tyre pressure monitoring system) sensors, which continuously monitor tyre pressure and contribute to vehicle safety. The OEM number for this set is 99104460152-1767, which confirms its authenticity and quality as Porsche original parts.

The condition of the wheels is described as very good and undamaged, making them an excellent choice for drivers who value quality and originality. This winter wheel set is an ideal addition to your Porsche 911 to ensure outstanding performance even in the coldest months of the year.

## Technical specifications

TPMS sensors:	Yes
Tyres:	The wheel set is incl. permissible tyres with Porsche specification code (N0 / N1 / N2...).
