Product description

This set of 21" exclusive design summer wheels for the Porsche Taycan J1 (built between 2019 and 2024) combines outstanding aesthetics with high functionality. The wheels are finished in an elegant black and consist of two differently sized rims: the front rim measures 9.5J x 21 ET60 and the rear rim 11.5J x 21 ET66. These dimensions ensure an optimal fit and improved driving performance.

The wheels are fitted with high-quality Goodyear summer tyres, measuring 265/35 R21 at the front and 305/30 R21 at the rear. These tyres offer excellent grip and stability at high speeds, improving both the safety and handling of your Taycan.

In addition, the wheels are equipped with TPMS (tyre pressure monitoring system) sensors that constantly monitor the pressure in the tyres, providing an additional level of safety. This feature is particularly important as it helps to minimise tyre wear and optimise fuel efficiency.

The item is new, unused and undamaged, making it an excellent choice for anyone looking for original parts for their Porsche Taycan. The OEM number for this product is 9J1073660R, which guarantees the authenticity and quality of the wheels.

This set of summer wheels is not only a practical addition to your Porsche Taycan, but also a stylish one, enhancing the overall look of your vehicle and ensuring an optimal driving experience.
