Discount:	40%
Available:	shipping in 2-3 weeks
Price:	4.808,78 € (nett:4.040,99 €)

Product description

The 21" SportDesign summer wheels for the Porsche Panamera G2/971.2 (facelift, built between 2020 and 2023) are an excellent choice for drivers who want to enhance both style and performance. These wheels, with OEM number 971044665E, are specially designed for the latest generation of the Panamera and offer a perfect fit and outstanding quality.

The rims measure 9.5J x 21 ET71 for the front axle and 11.5J x 21 ET69 for the rear axle, ensuring optimum vehicle balance and improved driving dynamics. The combination of these dimensions with high-quality Michelin summer tyres in sizes 275/35 ZR21 at the front and 315/30 ZR21 at the rear ensures excellent road holding and precise steering response in warm weather conditions.

In addition, the wheels are equipped with TPMS sensors that continuously monitor tyre pressure, ensuring increased safety and efficiency. The tyres themselves are brand new, which means they have no mileage and therefore offer maximum performance and service life.

Although these wheels are marked as used, they are original Porsche parts and are in mint condition with possibly minimal signs of use or storage. This makes them a cost-effective option for those who do not want to compromise on the quality and performance of original parts.

In summary, the 21" SportDesign summer wheels for the Porsche Panamera G2/971.2 offer a combination of first-class design, exceptional quality and high functionality that take the driving experience to a new level.

Technical specifications

Front rims:	Article number: 971601025D 88Z Quantity: 2 Rim width: 9,5J Rim diameter (inch): Offset (ET):
