Product description

The main silencer for the Porsche 911 model 991, specifically for the GT2 RS variant, has the OEM number 99111173180 and is an essential component of the vehicle's exhaust system. This used original Porsche part is in very good condition and undamaged, making it an excellent choice for replacement or upgrade.

The main silencer plays a crucial role in reducing the noise level caused by exhaust emissions. It also influences the performance and efficiency of the engine by optimising the exhaust gas flow. Using an original Porsche part ensures that the specific requirements and high quality standards required for the Porsche 911 GT2 RS are met.

This part should ideally be installed by qualified personnel to ensure the best possible fit and function. Choosing an original part not only offers the assurance of a correct fit, but also the certainty that the performance and longevity of the vehicle will be maintained.
