Product description

This high-quality rear window is specially designed for the Porsche 911 models 991 GT3 and GT3 RS. It is made of robust plastic and features no hole for the rear windscreen wiper, ensuring a clear and uninterrupted view. This window is ideal for drivers who value aerodynamics and a clean appearance for their vehicle.

The OEM numbers for this rear window are 99154511191 and 99154511190, confirming its authenticity and compatibility with the corresponding vehicle models. As an original Porsche part, this rear window guarantees a perfect fit and meets the highest quality standards.

The product is new, which means it is a brand new, unused and undamaged item. This ensures that you receive a product that is not only visually flawless, but also fully functional.

The rear window is an excellent choice for owners of a Porsche 911 991 GT3 or GT3 RS who are looking for original parts for the maintenance or improvement of their vehicle. It not only offers improved aesthetics, but also the assurance that the window has been specially designed for your vehicle model and therefore offers optimum performance and durability.
