Product description

This high-quality bumper for the Porsche 911 model 992.1 GT3 is specially designed for vehicles with parking assistance, as it has pre-drilled holes for the sensors. The bumper has the OEM number 9GT898014A and comes directly from Porsche's original parts range, which guarantees its fit and quality.

The bumper is used but in very good condition and undamaged. This makes it an excellent choice for owners of a Porsche 911 model 992.1 GT3 who want to restore the front of their vehicle to its original condition after an accident or wear and tear, or simply want to enhance the appearance of their car.

The integration of the parking aid sensors into the bumper allows for seamless aesthetics and functionality without the need for additional adjustments. This makes installation easier and ensures that the parking aid works as intended to make parking in difficult or tight spaces easier.

In summary, this bumper is an excellent choice for those who value original parts and a flawless appearance. It offers a direct fit and the familiar Porsche quality that supports the longevity and value of your vehicle.
