Price:	1.666,83 € (nett:1.400,70 €)

Product description

This high-quality component is specially designed for the Porsche 718 Cayman GT4RS model 982 and is an exclusive component of the Weissach package. It is the left cover of the side window air intake, made of glossy carbon, which not only enhances the aesthetics of your vehicle but also contributes to weight reduction and thus improved driving characteristics. The cover is part of the GT4RS Weissach package and is characterised by a precise fit and outstanding quality. It is new, unused and undamaged, ensuring its longevity and reliability. The OEM numbers for this specific part are 982853989C A3G and 982853989A A3G, confirming its authenticity and compatibility with the corresponding vehicle model.

This original Porsche part offers the perfect opportunity to enhance the look and function of your Porsche 718 Cayman by making a significant contribution to the aerodynamics and exclusive appearance of your sports car. Ideal for vehicle owners who value performance and originality.
