Product description

This rear bumper is specially designed for the Porsche 911 models of the 996 series, including the Carrera 4S, Turbo and GT2 variants in the USA version. The bumper bears the OEM numbers 99650541121 and 99650541117G2X, which confirms its authenticity and compatibility with the models mentioned.

As a new and unused original Porsche part, this bumper offers high quality and durability. It is already primed and therefore ready for painting in the colour of your vehicle. This enables seamless integration into the appearance of your Porsche 911.

Fitting this bumper ensures that the aesthetic appearance of your vehicle remains true to the original whilst effectively protecting the rear of the vehicle from damage. This part is an excellent choice for Porsche 996 owners who value original parts to preserve the authenticity and value of their vehicle.
